<b>Director Approval:</b>					

DEL is responsible for licensing activities to ensure that standards of health and safety are present in child care facilities in accordance with RCW and WAC regulations. The term "child care facility" is used to indicate licensed family child care homes, child care centers and school-age programs.

**Purpose**

Clarify and standardize the process for posting product safety information and provide contact information for the United States Consumer Product Safety Commission (CPSC) to the licensee or director in child care facilities.

**Policy**

DEL personnel are expected to adhere to all components of the attached Safety Recall Procedure. In addition, DEL personnel are expected to:

- I. Communicate to the licensee or director on how to obtain product safety recall information from the CPSC.
- II. Inform the licensee or director of their responsibility to ensure there are no items in the licensed facility that have been recalled.
- III. Licensors will also suggest that the licensee or director regularly check information on the CPSC website or from the toll free number.
- IV. Provide facility licensee or director with a statement of responsibility with regards to product safety recalls.
